

Stela Solutions

Introduction

Once our land was clean and green
And stars at night were clearly seen
Our energy then was free for all
Emissions too were really small

Then our industry came along
And made economies really strong
World leaders using fossil fuels
Looking back we look like fools

Cause now we face a massive war
To get back how it was before
We need to cut our fuel use down
To stop our planet turning brown

So as before, we need to lead
In order for us to succeed
And save our planet on the way
For generations later not to pay

To do our part the Indal group
Have developed products for to suit
Our LED's use little power
And give few emissions by the hour

So to help save our once green nation
We bring lights for the next generation
Stela is the helping hand
To provide savings we all demand

Stela Square 10

-
- 10 LED, 16W
 - 76mm Post Top
 - Saves 51% Energy compared to 24W PL-L

Stela Square 14

-
- 14 LED, 21W
 - 76mm Post Top
 - Saves 64% Energy compared to 26W SOX

Stela Square 18

-
- 18 LED, 26W
 - 76mm Post Top
 - Saves 61% Energy compared to 36W SOX

Stela Wide 36

-
- 36 LED, 52W
 - 76mm Post Top
 - Saves 42% Energy compared to 55W SOX

Stela Wide 52

-
- 52 LED, 70W
 - 76mm Post Top
 - Saves 40% Energy compared to 100W SON

CO₂ and Energy Savings with Stela LED

Before the end of 2009, around 10,000 Stela LED Road Lanterns will have been installed, massively reducing Carbon Footprints.

41% CO₂ Saving

55% CO₂ Saving

By the end of 2010, Local Government Authorities are expected to have increased the install base to more than 40,000 making a substantial contribution toward Climate Change Objectives.

These large scale deployments will save more than 84,000 tonnes of CO₂, 156 MWh of Energy, and £10 Million pounds of Maintenance cost over the 25 year life of their installations.

68% CO₂ Saving

Savings based on real life installations without dimming or switching off.

Stela Long Side Entry

-
- 18, 24, 26, 28 or 30 LED
 - 34 and 42mm side entry without adaptor
 - 28 LED saves 50% Energy compared to 70W SON

Stela Long Post Top

-
- 18, 24, 26, 28 or 30 LED
 - 60mm or 76mm post top alternatives
 - 28 LED saves 50% Energy compared to 70W SON

Stela Round

-
- 18 LED
 - 76mm post top
 - Saves 56% Energy compared to 50W SON

Stela Scene

- 36 LED
- Integrated Column or Arm Mounting
- Saves 53% Energy compared to 100W SON

Stela Wall

-
- Multi-LED Module
 - Up-lighter
 - White or RGB LED Options

Stela Flood

-
- 24 LED
 - Articulated Arm
 - Feature and Focal Point lighting

Stela Sign

-
- Multi-LED Module
 - Up-lighter
 - Road and Direction Sign Lighting

Stela Tunnel

- Multi-LED Modules
- Energy and Maintenance Saving
- Switching and Dimming Control System

Stela Mast

-
- Heights to 15m
 - Energy and Maintenance Saving
 - PIR Switching and Dimming Capable
